

# AFRICAN GRAY PARROT

- UNFORTUNATELY HUNDREDS OF THOUSANDS OF AFRICAN GRAY PARROTS HAVE BEEN TAKEN ILLEGALLY FROM THE WILD TO BE SOLD AS PETS
- BECAUSE OF THIS, THEY ARE NOW ENDANGERED IN THE WILD

- AFRICAN GRAY PARROTS LIVE IN THE RAINFORESTS OF CENTRAL AFRICA
- THEY EAT NUTS, SEEDS, AND FRUITS, AND USE THEIR POWERFUL BEAK TO OPEN THEIR FOOD

Designs

# DIRECTIONS

1. COLOR AND CUT OUT BOTH A AND B PIECES
2. GLUE THE BIRD BODY A & B TOGETHER
3. FOLD EACH WING TAB AND GLUE IT TO THE BIRD BODY AS LABELED
4. THE PRINTED SIDE OF THE WING SHOULD FACE UP, AND THE PLAIN SIDE OF THE PAPER SHOULD FACE DOWN
