What animal has an eyespot on the end of each arm?

What ocean animal has 3 hearts?

Which ocean animal does not have a stomach?

_______ can have a 360 degree field of vision.

____________ are fluorescent, which means they have the ability to obtain light from an external source and re-emit it almost instantly.

What ocean animal has an eyespot on the end of each arm?

Fortune Teller

1. Color the fortune teller
2. Cut along the edges of the fortune teller
3. Go to bit.ly/stlaquarium57 to watch a video about how to fold a fortune teller

Suggested Playing Directions

1. One partner picks a word: Reef, Sea, Wave, or Ocean
2. The partner holding the fortune teller spells out the word, moving the flaps side to side and in and out with the letters (repeat this step as many times as you wish)
3. The partner holding the fortune teller then reads the fact and their partner guesses which ocean animal it best describes
4. Lift the flap to reveal the answer
